About Us

Established in 2011, **CAFESCA** is part of ECOM's Coffee Division, it is a manufacturing facility dedicated to the production of roast and ground coffee, liquid and powdered extracts, including coffee oils and freeze dried.

We are full cycle coffee facility including roasting, grinding, extraction, concentration and different drying technologies.

ECOM is one of the largest traders of coffee, cocoa and cotton worldwide. Our journey began in 1849 and since then we have experienced a healthy and sustained growth.

We have direct operations in 40+ countries where we work closely with growers and stakeholders around the supply chain of our products.

Our QA team makes sure that we comply with the highest standards / certifications required for food safety and supply chain transparency.
